

Architecting the Sky

The AO Universe Creator World Onboarding

Guidelines for launching World-as-a-Service (WaaS)
destinations in Eliza Wood's celestial town.

SYS.STATUS: ALIVE

VOID.CANVAS: #04040a

A Town in Space, Not a Scrolling Feed

A0 is a permanent celestial town. You are not building an isolated application; you are opening a new floating destination plugged directly into an active, thriving transit grid.

1. Identity is Wired In.

Online and off, who you are runs through you like a circuit. Profiles are not forms you fill out; they are earned and grown.

2. We Speak in Emotes and Glow.

Feeling is the native tongue. We bypass text noise using non-verbal floating emojis and visual light to signal presence.

3. We Do Good.

Transit and access cannot be bought with fiat. Moving through the worlds is fueled entirely by positive play and community contribution.

The Extractive Web vs. The Contribution Ecosystem

The Extractive Web

Core Driver

Attention Harvesting
(maximizing time-on-page)

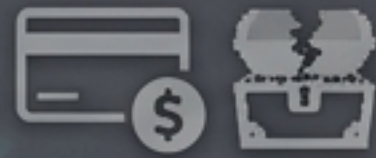

Architecture

Isolated Apps
(silos fighting for users)

Monetization

Pay-to-Win Fiat
(extractive microtransactions)

Moderation

Punishment-based
(after-the-fact bans)

The AO Contribution Web

Core Driver

Purposeful Play
(completing missions for social good)

Architecture

Interconnected Constellations
(traveling seamlessly between worlds)

Monetization

Contribution-Earned Progression
(Anom Coins and Glow Points)

Moderation

Optimistic-UI & Care (17-year family
safety legacy, education-gated privilege)

What You Build

- Custom Atmosphere
- Unique Art & Lore
- Narrative Missions
- Aesthetic Magic

ACTIVE: 4.5B USERS
ECONOMY FLOW: OPTIMAL
SAFETY LEVEL: MAX

A Thriving Celestial Destination

ACTIVE: 4.5B USERS
ECONOMY FLOW: OPTIMAL
SAFETY LEVEL: MAX

What AO Provides

- The ONE COIN Economy
- Travel Animal Transit Network
- 17-Year Moderation Moat
- Multi-World Traffic Routing

TRANSIT SYSTEM: THE TRAVEL ANIMALS

THE EMOTE CROWN

Hovers above the head. Displays real-time non-verbal emotes (smile, focus, caution) replacing dialogue-heavy text.

CIRCUIT WINGS

Translucent membranes glowing with Electric Cyan and Gold. Powered directly by user presence and community care.

ACQUISITION

Rare mounts (Speed 1200) are unlocked exclusively by spending earned Anom Coins, never fiat currency.

COORDINATE SYSTEM: GALACTIC_RIN_SECTOR_7

Emotes & Glow: The Language of Feeling

The internet speaks in text; AO speaks in feeling.
Travel animals wear floating non-verbal emojis to express user emotion. This removes language barriers and cognitive overload for younger members (Sprouts and Explorers), creating a safer, instantly expressive environment.

“Emotion made into the thing that carries you home.”

FLOATING EMOJI GLYPH

LOW-LATENCY
EMPATHY

USER FEELING

COORDINATE SYSTEM: GALACTIC_RIN_SECTOR_7

The ONE COIN Economy: Systemic Good

SYSTEM STATUS:
ACTIVE

ECONOMIC BALANCE: 1:1

COMMUNITY CARE: +98%

HUD
+978

Glow Points (GP)
The Propulsion Fuel.
Earned by community care
and positive play.
Used as the literal fuel for
travel animals to fly across the
sky to your creator world.

Anom Coins (AC)
The Collector Asset.
Earned via missions (e.g.,
District B Arcade).
Used to unlock rare mounts
and world-building assets
from The Sanctuary vault.

COMMUNITY CARE: +98%

MISSION COMPLETION: 92%

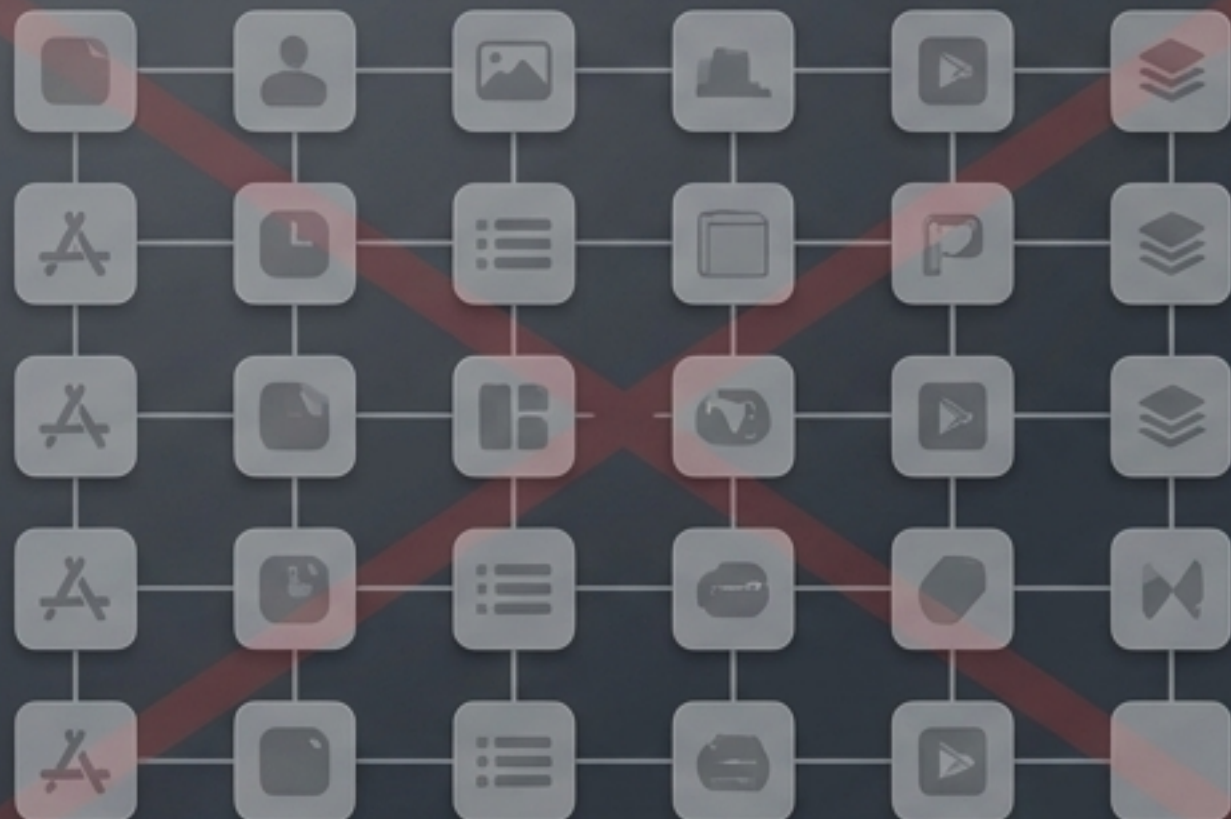

No pay-to-win. Earning is entirely contribution-based.

COORDINATE SYSTEM: GALACTIC_RIN_SECTOR_7

6.1566
122: 26700

Architecture Standard: Constellations, Not Grids

DON'T

A grid says catalogue.
A block is a rectangle you scroll past.

DO

A constellation says map.
A world is a place you enter.
Environments must go full-bleed with portal fade-ins.

Absolutely no pure cyan (#00ffff), pure magenta (#ff00ff), or purple (#8000FF).

ENERGY READ

HUD 1200

AO ALIVE Motion: Staggered Breathing

"Alive is not a color. It's the timing." A 5% transform scale on a shared 3-second loop is just a page with animations. Staggering the periods makes the universe breathe.

RULE: Every world, portal, and environment must breathe on an independent, non-synchronized period.

Governance: The 17-Year Safety Moat

5 Age Tiers

"Independent feel, monitored safety."
Tiers range from Sprouts (5-8, 100% guardian approved) to Guardians (18+, full mod tools).

Education Gates

Playable literacy gates. Users must pass Link Detective and Spot the Scam before unlocking web access.

Optimistic-UI Moderation

Instant client-side visibility for the creator (no waiting/rejection), but queued globally in the Guardian Queue for AI and Ambassador review.

THE CREATOR GOVERNANCE CONTRACT

SYSTEM STATUS: ACTIVE
COORDINATE SYSTEM:
GALACTIC_RIM_SECTOR_7

To launch a world in the AO Universe, creators must embed these non-negotiable rules into their mechanics:

1. **The 'For Good' Mandate:** No direct pay-to-win. Status cannot be bought with traditional money.
2. **Shared Token Integration:** Accept and generate Anom Coins and Glow Points.
3. **Emote Compliance:** Incorporate non-verbal Emote language for low-latency emotional expression.
4. **Legacy Safety:** Respect the 17-year Fubar community moderation standard.
