AO UNIVERSE: MASTER BUILD SPECIFICATION

Definitive Source of Truth for Enterprise Deployment // All 41 Notebook Sources Consolidated

> **SINGLE SYSTEM DIRECTIVE:** *'Our identity is wired into us — online and off. We speak in emotes and glow. We do good.'*
> **CORE OPERATING PRINCIPLE:** *'We protect the glow, not the grind.'*
> **DESIGN STANDARD AXIOM:** *'Alive is not a color. It's the timing.'*

1. Executive Overview & Founder Origin

AO Universe LLC is a vertically integrated creative and technology conglomerate headquartered in Woodbridge, VA (Prince William County), founded and led by Elizabeth Wood (CEO & CCO). Operating under parent brand **Anom Originals**, the ecosystem comprises 12 active divisions operating digitally with a self-sustaining flywheel model.

Founder Provenance: Elizabeth Wood is an artist, coder, CNA caregiver, former owner of It's Heavenly Kleen, and mother of six. After becoming homebound following a brown recluse spider bite in 2019, she learned coding, graphics, and community building as a volunteer moderator and lounge builder on FUBAR.com. This 17-year moderation background directly forms the platform's architecture: moderation is care, family comes before followers, and safety is hard-coded into the infrastructure.
